The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the National Forests and National Grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Disclaimer

Papers were provided by the authors in camera-ready form for printing. Authors are responsible for the content and accuracy. Opinions expressed may not necessarily reflect the position of the U.S. Department of Agriculture.

The use of trade or firm names in this publication is for reader information and does not imply endorsement by the U.S. Department of Agriculture of any product or service.

Pesticide Precautionary Statement

This publication reports research involving pesticides. It does not contain recommendations for their use, nor does it imply that the uses discussed here have been registered. All uses of pesticides must be registered by appropriate state or federal agencies, or both, before they can be recommended.

CAUTION: Pesticides can be injurious to humans, domestic animals, desirable plants, and fish or other wildlife—if they are not applied properly. Use all pesticides selectively and carefully. Follow recommended practices for the disposal of surplus pesticides and pesticide containers.

Technical Coordinators

Susan J. Frankel is Sudden Oak Death Research Program Manager, USDA Forest Service, Pacific Southwest Research Station, 800 Buchanan Street, West Annex Building, Albany, CA 94710-0011 (e-mail address: sfrankel@fs.fed.us).

Patrick J. Shea is Emeritus Research Entomologist, USDA Forest Service, Pacific Southwest Research Station, 800 Buchanan Street, West Annex Building, Albany, CA 94710-0011 (e-mail address: pjshea@davis.com).

Michael I. Haverty is Emeritus Research Entomologist, USDA Forest Service, Pacific Southwest Research Station, 800 Buchanan Street, West Annex Building, Albany, CA 94710-0011 (e-mail address: mhaverty@fs.fed.us)

Proceedings of the Sudden Oak Death Second Science Symposium: The State of Our Knowledge

January 18-21, 2005

Monterey, California

Susan J. Frankel, Patrick J. Shea, and Michael I. Haverty

Technical Coordinators

Conference Sponsors

USDA Forest Service, Pacific Southwest Research Station

University of California, Integrated Hardwood Range Management Program,

Center for Forestry, Division of Agriculture and Natural Resources Berkeley, California

California Oak Mortality Task Force

Additional Funding Support

Exotic/Invasive Pests and Diseases Research Program in the University of California

Statewide IPM Program and UC Riverside Center for Invasive Species Research, funded by USDA/CSREES Special Research Grant “Exotic Pests and Diseases (CA).”

Abstract

Frankel, Susan J.; Shea, Patrick J.; and Haverty, Michael I., tech. coords. 2006.

Proceedings of the sudden oak death second science symposium: the state of our knowledge. 2005 January 18-21; Monterey, CA. Gen. Tech. Rep. PSW-GTR-196. Albany, CA: Pacific Southwest Research Station, Forest Service, U.S. Department of Agriculture; p. 571.

The Sudden Oak Death Second Science Symposium provided a forum for current research on sudden oak death, caused by the exotic, quarantine pathogen, *Phytophthora ramorum*. Ninety papers and forty-six posters on the following sudden oak death/*P. ramorum* topics are included: biology, genetics, nursery and wildland management, monitoring, ecology, and diagnostics. Several papers on *P. kernoviae* and other forest *Phytophthora* species are also presented.

Key words: sudden oak death, *Phytophthora ramorum*, invasive species, tanoak, coast live oak

Contents

1 Keynote Address and Overviews

- 3 Keynote Address Sudden Oak Death Second Science Symposium, Monterey, California, January 19, 2005
Representative Lynn Woolsey, California's 6th Congressional District
- 7 USDA Forest Service, Pacific Southwest Research Station Sudden Oak Death Program: 2001-2005
Patrick J. Shea
- 11 Understanding Sudden Oak Death: A Model of Partnership and Collaboration
Jimmy L. Reaves
- 17 History and Background of the California Oak Mortality Task Force (COMTF)
Mark R. Stanley
- 21 Research on the Epidemiology, Ecology and Management of *Phytophthora ramorum* in California forests
David M. Rizzo
- 27 Epidemiology of *Phytophthora ramorum* in Oregon
E.M. Hansen, A. Kanaskie, E.M. Goheen, N. Osterbauer, and W. Sutton
- 31 Sudden Oak Death: Recent Developments on Trees in Europe
Clive Brasier, Sandra Denman, Joan Webber, and Anna Brown

35 *Phytophthora ramorum* in Nurseries

- 37 Review of *Phytophthora ramorum* in Europe and North American Nurseries
Janice Alexander
- 41 *Phytophthora ramorum*—Economic Impacts and Challenges for the Nursery Industry
Karen Suslow
- 45 APHIS *Phytophthora ramorum* Regulatory Strategy for Nurseries
Jonathan M. Jones
- 47 Update on Diagnostics for *Phytophthora ramorum*
Philip Berger
- 51 Update on European Union and United Kingdom Legislation for *Phytophthora ramorum*
Stephen Hunter

55 Biology I

- 57 *Phytophthora* Species Associated With Forest Soils in Central and Eastern U.S. Oak Ecosystems
Y. Balci, S. Balci, J. Eggers, W.L. MacDonald, K.W. Gottschalk, J. Juzwik, and R. Long
- 61 The Effects for Girdling on the Ectomycorrhizal Fungal Community Associated With Tanoak (*Lithocarpus densiflorus*)
Sarah Bergemann, Nicholas Kordesch, Matteo Garbelotto, and Timothy Metz

- 63 *Phytophthora* Species From Oak and Tanoak Forests in California and Oregon
Everett Hansen, David Rizzo, and Matteo Garbelotto
- 67 Isolation and Characterization of Phytotoxins Secreted by *Phytophthora ramorum*
Daniel K. Manter, Rick G. Kelsey, and Joseph J. Karchesy
- 69 Incidence of *Phytophthora ramorum*, *P. nemorosa* and *P. pseudosyringae* in Three Coastal California Forest Communities
Shannon K. Murphy and David M. Rizzo
- 73 Ecology of *Phytophthora nemorosa* and *Phytophthora pseudosyringae* in Mixed-Evergreen Forests
Allison C. Wickland and David M. Rizzo
- 77 Susceptibility of Conifer Shoots to Infection by *Phytophthora ramorum*
G.A. Chastagner, E.M. Hansen, K.L. Riley, and W. Sutton
- 79 Susceptibility Levels of *Rhododendron* Species and Hybrids to *Phytophthora ramorum*
Isabelle De Dobbelaere, Kurt Heungens, and Martine Maes
- 83 Variation in Phenotype for Resistance to *Phytophthora ramorum* in a Range of Species and Cultivars of the Genus *Viburnum*
Niklaus J. Grunwald, E. Anne Davis, and Robert G. Linderman
- 87 Variation in Susceptibility of *Umbellularia californica* (Bay Laurel) to *Phytophthora ramorum*
Matthew Meshriy, Daniel Hüberli, Tamar Harnik, Lori Miles, Keefe Reuther, and Matteo Garbelotto
- 91 Magnetic Resonance Imaging (MRI) of Oak Trees Infected With *Phytophthora ramorum* to Determine Potential Avenues of Infection in Bark
Edwin R. Florance
- 101 Adaptive Differences Between *Phytophthora ramorum* Isolates From Europe and North America: Evidence for Separate Subspecies?
Clive Brasier, Susan Kirk, and Joan Rose
- 105 Distribution and Etiology of Aerial Stem Infections of *Phytophthora ramorum* and *Phytophthora kernoviae* at Three Woodland Sites in the U.K.
Anna Brown, Clive Brasier, Sandra Denman, Joan Rose, Susan Kirk, and Joan Webber
- 109 Comparative Host Range and Aggressiveness of *Phytophthora ramorum* and *Phytophthora kernoviae* sp. nov. on North American and European Trees
Clive Brasier, Joan Rose, Susan Kirk, Sandra Denman, and Joan Webber
- 113 The Search for the Origin of *Phytophthora ramorum*: A First Look in Yunnan Province, People's Republic of China
Ellen Michaels Goheen, Thomas L. Kubisiak, and Wenxia Zhao
- 117 Genetics**
- 119 Does Stand Density Affect Mating System and Population Genetic Structure in Coast Live Oak?
Kathryn Beals and Richard S. Dodd

- 123 Genetic Hitch-Hiking Extends the Range of Coast Live Oak
Richard S. Dodd, Zara Afzal-Rafii, and Wasima Mayer
- 125 Seasonal Trends in Response to Inoculation of Coast Live Oak With *Phytophthora ramorum*
Richard S. Dodd, Daniel Hüberli, Tamar Y. Harnik, Brenda O'Dell, and Matteo Garbelotto
- 129 Potential for Sexual Reproduction of *Phytophthora ramorum* in Washington State Nurseries
Matteo Garbelotto, Kelly Ivors, Daniel Hüberli, Peter Bonants, and Art Wagner
- 131 Phenotypic Variation Among *Phytophthora ramorum* Isolates From California and Oregon
Daniel Hüberli, Tamar Harnik, Mathew Meshriy, Lori Miles, and Matteo Garbelotto
- 135 Molecular Identification and Detection of *Phytophthora ramorum*
Peter Bonants, Els Verstappen, Ineke de Vries, Katarzyna Wiejacha, and Kelly Ivors
- 139 Molecular Detection of *Phytophthora ramorum* by Real-Time PCR Using Taqman, SYBR[®] Green and Molecular Beacons With Three Genes
G.J. Bilodeau, C.A. Lévesque, A.W.A.M. de Cock, C. Duchaine, G. Kristjansson, and R.C. Hamelin
- 141 Using Single Strand Conformational Polymorphisms (SSCP) to Identify *Phytophthora* Species in Oregon Forests Affected by Sudden Oak Death
E. Hansen, C. Hesse, P. Reeser, W. Sutton, and L. Winton
- 143 Application of Rapid Onsite PCR (Taq Man[®]) for *Phytophthora ramorum* Under U.S. Conditions
Kelvin Hughes, Jenny Tomlinson, Neil Boonham, Kelly Ivors, Matteo Garbelotto, and Ian Barker
- 145 Use of Microsatellite Markers Derived From Whole Genome Sequence Data for Identifying Polymorphism in *Phytophthora ramorum*
Kelly Ivors, Matteo Garbelotto, Ineke de Vries, and Peter Bonants
- 147 Single-Strand Conformational Polymorphism Analysis of Ribosomal DNA for Detection of *Phytophthora ramorum* Directly From Plant Tissues
Ping Kong, Patricia A. Richardson, Chuanxue Hong, and Thomas L. Kubisiak
- 149 AFLP Analysis of *Phytophthora nemorosa* and *P. pseudosyringae* Genetic Structure in North America
Rachel Linzer, David Rizzo, and Matteo Garbelotto
- 153 Molecular Markers for Identification of *P. ramorum* and Other *Phytophthora* Species From Diseased Tissue
Frank N. Martin and Paul W. Tooley
- 157 Genome Sequence of *Phytophthora ramorum*: Implications for Management
Brett Tyler, Sucheta Tripathy, Nik Grunwald, Kurt Lamour, Kelly Ivors, Matteo Garbelotto, Daniel Rokhsar, Nik Putnam, Igor Grigoriev, and Jeffrey Boore

159 Biology II

- 161 The Importance of Humans in the Dispersal and Spread of *Phytophthora ramorum* at Local, Landscape, and Regional Scales
J. Hall Cushman and Ross Meentemeyer
- 165 Summer Survival of *Phytophthora ramorum* in Forest Soils
Elizabeth J. Fichtner, Shannon C. Lynch, and David M. Rizzo
- 167 Monitoring of Natural Outbreaks of *Phytophthora ramorum* in the United Kingdom
Judith Turner, Alex Appiah, Philip Jennings, Gilli Humphries, Debbie Liddell, Sam McDonough, Jackie Stonehouse, David Lockley, and Stephen Eales
- 169 Examining the Relationship Between Fire History and Sudden Oak Death Patterns: A Case Study in Sonoma County
Max A. Moritz and Dennis C. Odion
- 179 Forecasting the Future of Coast Live Oak Forests in the Face of Sudden Oak Death
Letty B. Brown and Barbara Allen-Diaz
- 181 Etiology and Evidence of Systemic Acidification in SOD-Affected Forests of California
Lee Klinger and Ralph Zingaro
- 183 Progress Report on the Evaluation of the Susceptibility of the Holm Oak (*Quercus ilex*) Forest Ecosystem to *Phytophthora ramorum*
Eduardo Moralejo and Enrique Descals
- 185 A Spatial Analysis of *Phytophthora ramorum* Symptom Spread Using Second-Order Point Pattern and GIS-Based Analyses
Mark Spencer and Kevin O'Hara
- 187 Residual Tree Response to Tanoak Decline in California
Kristen M. Waring and Kevin L. O'Hara
- 191 SOD-Induced Changes in Foraging and Nesting Behavior of Insectivorous, Cavity-Nesting Birds
Kyle Apigian and Barbara Allen-Diaz
- 193 Patterns of Tanoak Acorn Production in *Phytophthora ramorum* Infested and Uninfested Stands in Big Sur, California, With Insights From Girdled Tanoaks
Leila Hadj-Chikh, Kerri Frangioso, Keyt Fischer, Sarah Bergemann, and Ebba Peterson
- 195 Potential Effects of Sudden Oak Death on the Oak Woodland Bird Community of Coastal California
William B. Monahan and Walter D. Koenig
- 211 Vegetation and Small Vertebrates of Oak Woodlands at Low and High Risk for Sudden Oak Death in San Luis Obispo County, California
Douglas J. Tempel, William D. Tietje, and Donald E. Winslow
- 233 Potential Effects of Sudden Oak Death on Small Mammals and Herpetofauna in Coast Live Oak (*Quercus agrifolia*) Woodlands
Douglas J. Tempel and William D. Tietje

237 Management

- 239 Effectiveness of Fungicides in Protecting Douglas-fir Shoots From Infection by *Phytophthora ramorum*
G.A. Chastagner, E.M. Hansen, K.L. Riley, and W. Sutton
- 241 Fungicide Control of *Phytophthora ramorum* on Rhododendron
Kurt Heungens, Isabelle De Dobbelaere, and Martine Maes
- 259 Effects of Phosphonate Treatments on the Growth of *Phytophthora ramorum* in Tanoak Stems
Alan Kanaskie, Everett Hansen, and Wendy Sutton
- 263 Effects of Phosphonate Treatments on Sudden Oak Death in Tanoak and Shreve's Oak
Doug Schmidt, Matteo Garbelotto, Dave Chambers, and Steve Tjosvold
- 265 Evaluation of Chemical and Biological Agents for Control of *Phytophthora* Species on Intact Plants or Detached Leaves of Rhododendron and Lilac
R.G. Linderman and E.A. Davis
- 269 Evaluation of Fungicides for the Control of *Phytophthora ramorum* Infecting *Rhododendron*, *Camellia*, *Viburnum*, and *Pieris*
S.A. Tjosvold, D.L. Chambers, and S. Koike
- 273 Chemical Control of *Phytophthora ramorum* Causing Foliar Disease in Hardy Nursery Stock in the United Kingdom
Judith Turner, Philip Jennings, Sam McDonough, Debbie Liddell, and Jackie Stonehouse
- 275 *Phytophthora ramorum* Infection in Coast Live Oaks and Shreve's Oaks Treated With Insecticide to Prevent Beetle Colonization
Brice A. McPherson, David L. Wood, David M. Rizzo, Pavel Svihra, Steve Tjosvold, Andrew J. Storer, and Richard B. Standiford
- 279 Effects of Sanitary Measures on the Survival of *Phytophthora ramorum* in Soil
M.M. Aveskamp, P.J.M. van Baal, and J. de Gruyter
- 285 Thwarting *Phytophthora ramorum*: A Proposed Disease Cycle With Mitigation Measures
Betsy Randall-Schadel and Scott Redlin
- 287 Introduction of Filtration Systems in Container Nurseries for Nonchemical Elimination of *Phytophthora* spp. From Irrigation Water
Thorsten Ufer, Heinrich Beltz, Thomas Brand, Katrin Kaminski, Ralf Lüttmann, Martin Posner, Stefan Wagner, Sabine Werres, and Hans-Peter Wessels
- 291 *Phytophthora ramorum* Disease Transmission From Artificially Infested Potting Media
Jennifer L. Parke, Melody L. Roth, Carrie Lewis, and Caroline J. Choquette
- 295 Pathways of Infection for *Phytophthora ramorum* in Rhododendron
Carrie D. Lewis and Jennifer L. Parke
- 299 Survival of *Phytophthora* Species and Other Pathogens in Soilless Media Components or Soil and Their Eradication With Aerated Steam
R.G. Linderman and E.A. Davis

303 Ecology and Monitoring

- 305 Potential Effects of Sudden Oak Death on Birds in Coastal Oak Woodlands
Donald E. Winslow and William D. Tietje
- 329 Climate-Host Mapping of *Phytophthora ramorum*, Causal Agent of Sudden Oak Death
Glenn Fowler, Roger Magarey, and Manuel Colunga
- 333 Modeling Risk for SOD Nationwide: What Are the Effects of Model Choice on Risk Prediction
M. Kelly, D. Shaari, Q. Guo, and D. Liu
- 345 Aerial and Ground Surveys for Mapping the Distribution of *Phytophthora ramorum* in California
Jeffrey A. Mai, Walter Mark, Lisa Fischer, and Amy Jirka
- 361 Early Detection Monitoring of *Phytophthora ramorum* in High-Risk Forests of California
Ross Meentemeyer, Elizabeth Lotz, David M. Rizzo, Kelly Buja, and Walter Mark
- 365 *Phytophthora ramorum* Detection Surveys for Forests in the United States
S.W. Oak, W.D. Smith, and B.M. Tkacz
- 367 *Phytophthora ramorum* Experience and Approach in the Netherlands
M.H.C.G. Steeghs and J. de Gruyter
- 371 Pre-epidemic Mortality Rates for Common *Phytophthora ramorum* Host Tree Species in California
T.M. Barrett
- 379 Sudden Oak Death Disease Progression in Oaks and Tanoaks
Brice A. McPherson, Sylvia R. Mori, David L. Wood, Andrew J. Storer, Pavel Svihra, N. Maggi Kelly, and Richard B. Standiford
- 383 Disease Risk Factors and Disease Progress in Coast Live Oak and Tanoak Affected by *Phytophthora ramorum* Canker (Sudden Oak Death)
Tedmund J. Swiecki and Elizabeth Bernhardt
- 413 Surveying and Monitoring Sudden Oak Death in Southwest Oregon Forests
Ellen Michaels Goheen, Alan Kanaskie, Mike McWilliams, Everett Hansen, Wendy Sutton, and Nancy Osterbauer

417 Management II

- 419 The Response of Saprotrophic Beetles to Coast Live Oaks Infected With *Phytophthora ramorum*
Brice A. McPherson, Nadir Erbilgin, David L. Wood, Pavel Svihra, Andrew J. Storer, and Richard B. Standiford
- 423 Chemical Ecology of Sudden Oak Death/Ambrosia Beetle Interactions
Frances S. Ockels, Pierluigi Bonello, Brice McPherson, and David L. Wood
- 427 Relationships Between *Phytophthora ramorum* Canker (Sudden Oak Death) and Failure Potential in Coast Live Oak
Tedmund J. Swiecki, Elizabeth Bernhardt, Christiana Drake, and Laurence R. Costello
- 455 The Current Situation With *Phytophthora ramorum* in England and Wales
David Slawson, Lynne Bennett, Nicola Parry, and Charles Lane

- 459 Epidemiology of *Phytophthora ramorum* Infecting Rhododendrons Under Simulated Nursery Conditions
S.A. Tjosvold, D.L. Chambers, S. Koike, and E. Fichtner
- 463 Converting Biology Into Regulations: U.S. *Phytophthora ramorum* Quarantine as a Case Study
Susan J. Frankel and Steven W. Oak
- 465 Who Pays for Sudden Oak Death? An Economic Investigation of the Impact of an Emerging Pathogen on California Nurseries
J.K. Gillies, J. Tack, and A. Peterson Zwane
- 467 Understanding the Disposal and Utilization Options for *Phytophthora ramorum* Infested Wood
John Shelly, Ramnik Singh, Christine Langford, and Tad Mason
- 483 Extended Abstract on the Potential for *Phytophthora ramorum* to Infest Finished Compost
Steven Swain and Matteo Garbelotto
- 487 Ecological Evidence of Intensive Cultivation of Oaks by California Indians: Implications for the Treatment of Sudden Oak Death
Lee Klinger
- 489 Eradication of *Phytophthora ramorum* in Oregon Forests—Status After 3 Years
Alan Kanaskie, Nancy Osterbauer, Michael McWilliams, Ellen Goheen, Everett Hansen, and Wendy Sutton
- 491 Posters**
- 493 Trace Forward, Perimeter, and National Nursery Surveys for *Phytophthora ramorum* in Texas
D.N. Appel, T. Kurdyla, R.F. Billings, K.S. Camilli, and A. Purdy
- 494 Small Mammal and Herpetofaunal Abundance and Diversity Along a Gradient of Sudden Oak Death Infection
Kyle Apigian, Letty Brown, Jenny Loda, Sarah Toas, and Barbara Allen-Diaz
- 495 Pacific Yew as a Host for *Phytophthora ramorum* in California Forests
J.C. Bienapfl, J.W. Zanzot, and D.M. Rizzo
- 496 First Report of *Pyraecanthia koidzumii* as a Host for *Phytophthora ramorum*
Stephan C. Briere, Sarah Llewellyn, and Gary Kristjansson
- 497 Predicting the Potential for Establishment of *Phytophthora ramorum* in the Oak Forests of the North Central States, USA
S.D. Cohen and R.C. Venette
- 500 Mechanisms Underlying Differences in Inoculum Production by *Phytophthora ramorum* in Mixed-Evergreen Versus Tanoak-Redwood Forest in California
Jennifer M. Davidson, Elizabeth J. Fichtner, Heather A. Patterson, Kristin R. Falk, and David M. Rizzo
- 501 Detection and Distribution of *Phytophthora ramorum* in Soils
Elizabeth J. Fichtner, Shannon C. Lynch, and David M. Rizzo
- 502 Progress Toward the Development of a Model to Quantify the Efficacy of Detection Strategies for *Phytophthora ramorum*
Yashika Forrester, Betsy Randall-Schadel, Allan Hogue, David Oryang, and Robert McDowell

- 503 A Case Study to Evaluate Ground-Based, Wildland Survey Methods for *Phytophthora ramorum* in Coast Live Oak Stands in California
Susan J. Frankel, Sylvia Mori, Janice Alexander, Don Owen, Jennifer Davidson, and David M. Rizzo
- 509 Addressing *Phytophthora ramorum* in California: Programs of the USDA Forest Service and California Department of Forestry and Fire Protection
Susan J. Frankel and Mark Stanley
- 512 Anatomical Examination of *Phytophthora ramorum* Infection in *Camellia*
Elizabeth Geltz, Jessica McHugh, Lisa Baird, Sibdas Ghosh, Peter Thut, and Mietek Kolipinski
- 513 Application of Fungicides to Protect Four Hosts From Foliar Infection by *Phytophthora ramorum* in Curry County, Oregon
Ellen Michaels Goheen, Alan Kanaskie, Jennifer Parke, Melody Roth, Nancy Osterbauer, and Aaron Trippe
- 515 Amplified Fragment Length Polymorphism Assessment of Population Diversity in California Bay Laurel (*Umbellularia californica*)
Sarah Gordon, Richard Whitkus, Ross Meentemeyer, and Brian Anacker
- 516 Persistence of *Phytophthora ramorum* After Eradication Efforts in Oregon Tanoak Forests
E.M. Hansen and W. Sutton
- 517 Effect of Chemicals on Hyphal Growth, Sporangia Production and Zoospore Germination of *Phytophthora ramorum*
Tamar Y. Harnik and Matteo Garbelotto
- 518 Quantitative Resistance to *Phytophthora ramorum* in Tanoak
Katherine Hayden and Matteo Garbelotto
- 519 Distribution and Pathogenicity of *Phytophthora nemorosa* and *P. pseudosyringae* in Coastal Forests of California
Camille E. Jensen, Allison C. Wickland, and David M. Rizzo
- 520 Inoculation Trials With *Phytophthora ramorum* on Moorland Species
Stefan Wagner, Katrin Kaminski, and Sabine Werres
- 523 Infectivity and Survival of *Phytophthora ramorum* in Recirculation Water
Heinrich Beltz, Thomas Brand, Katrin Kaminski, Dankwart Seipp, Stefan Wagner, and Sabine Werres
- 526 Ectomycorrhizal Diversity Associated With Tanoaks (*Lithocarpus densiflorus*)
Nicholas Kordesch, Sarah Bergemann, and Matteo Garbelotto
- 527 Epidemiological Aspects of *Phytophthora ramorum* in Redwood Forests of the Coast Range of California: A 3-Year Look
Patricia E. Maloney, Shannon C. Lynch, and David M. Rizzo
- 528 Sensitivity and Specificity of Inspection and Testing Procedures for *Phytophthora ramorum* on Nursery Stock
Robert McDowell, Betsy Randall-Schadel, and Shawn Robertson
- 529 Survival of *Phytophthora ramorum* in Tanoak and Rhododendron Leaves
I. McLaughlin, W. Sutton, and E. Hansen

- 530 Multihyphal Structures Formed by *Phytophthora ramorum* on Inoculated Leaves of Mediterranean Shrubs
Eduardo Moralejo and Enrique Descals
- 531 Monitoring *Phytophthora ramorum* Distribution in Streams Within Coastal California Watersheds
Shannon K. Murphy, Chris Lee, John Bienapfl, Yana Valachovic, and David M. Rizzo
- 532 Monitoring of *Phytophthora ramorum* in the North Central United States
Frances S. Ockels, Pierluigi Bonello, and Manfred Mielke
- 533 Genotyping *Phytophthora ramorum* Isolates From Nurseries in the United States Using PCR-RFLP and Microsatellite Analyses
Rodrigo Olarte, Matteo Garbelotto, and Kelly Ivors
- 534 Surveying for *Phytophthora ramorum* in Urban and Wild Forests Throughout Western Oregon
N. Osterbauer, A. Trippe, S. Suttle, M Boschee, A. Kanaskie, and L. Bauer
- 535 Detached-Leaf Assays With *Phytophthora ramorum*: Are They Valid?
Jennifer L. Parke, Melody L. Roth, and Caroline J. Choquette
- 536 Low Genotypic Diversity of *Phytophthora ramorum* in North America Revealed by Microsatellite Markers
S. Prospero, E.M. Hansen, and L.M. Winton
- 538 Nursery Cultural Practices and Physiological State of Nursery Stock on Susceptibility of *Phytophthora* Species, Including *P. ramorum*
Steven J. Scheuerell, Robert G. Linderman, Niklaus J. Grunwald, and E. Anne Davis
- 539 Environmental Limits to Infection by *Phytophthora ramorum* in Tanoak and California Bay Laurel
Lilly Schinsing, Katherine Hayden, and Matteo Garbelotto
- 540 Evaluating the Survival of *Phytophthora ramorum* in Firewood
John Shelly, Ramnik Singh, Christine Langford, and Tad Mason
- 541 Development of Detection Methods for *Phytophthora ramorum* in Georgia
Pauline Spaine, William Otrrosina, and Stephen Fraedrich
- 542 Sudden Oak Death Bike Tire Scrubber
Peter Thut, Rocky Chavez, Desaree Williams, Sibdas Ghosh, Lisa Baird, Mietek Kolipinski, and Bruce Badzik
- 543 *Phytophthora ramorum* Research and Control in North Coastal California
Yana Valachovic, Chris Lee, Dave Rizzo, Jack Marshall, John Bienapfl, and Shannon Murphy
- 545 Characterization of European and American *Phytophthora ramorum* Isolates Due to Their Morphology and Mating Behavior *in vitro* With Other Heterothallic *Phytophthora* Species
Sabine Werres and Katrin Kaminski
- 548 Surveying for *Phytophthora ramorum* in Ornamental Nurseries, Home Landscapes, and Forests in Georgia, USA
Jean L. Williams-Woodward

- 549 Plotless Evaluation of *Phytophthora ramorum* Incidence in Oaks and Tanoaks in Two Different Forest Types in California
Brice A. McPherson, David L. Wood, N. Maggi Kelly, Andrew J. Storer, and Richard B. Standiford
- 552 Thwarting *Phytophthora ramorum*: An Interactive Poster on Breaking the Disease Cycle
Betsy Randall-Schadel and Scott Redlin
- 553 *Phytophthora ramorum* on *Calluna vulgaris*, *Photinia fraseri*, and *Pieris japonica* in Poland
Leszek B. Orlikowski, Aleksandra Trzewik, and Grazyna Szkuta
- 554 Comparative Evaluation of Real-Time PCR (TaqMan[®]) With Isolation for Diagnosis of *Phytophthora ramorum*
Kelvin Hughes, Ruth Griffin, Jenny Tomlinson, Neil Boonham, Victoria Barton, Patricia Giltrap, Ellie Hobden, Lynn Walker, Gilli Humphries, Ann Barnes, Paul Beales, Alan Inman, and Charles Lane
